1 Introduction

This document describes changes in the **Item Status** table and how they affect new **Items and Item Registration** functionality

1.1 Setting the Default Item Status for new Items and Variants

Select the checkbox **Default for new Items/Variants** in the **Item Status** that should be assigned to every new **Item** and/or **Variant**. If no entry is selected as default the system will not assign any status to new **Items / Variants**.

Code	Description	Default for new Items/Variants	Block Sale on ...	Block Purc...	Block Purc... Retu...	Block Tran...	Block Disc...	Block Pro... Price	Block Man... Pric...	Block Peri... Disc...	Block Sale in S...	Block Sales Retu...	Block Neg... Adj...	Block Posi... Adj...	Sequence of Record
BLSALE	Block Sales	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	0
CLOSED	Closed	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	0
NEW	New	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	0

OPENSTORES	Open for Stores	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	0
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	0

The default status is shown in green on the **Item Status Page**. The system allows only one status to be defined as **Default** at any time, none is also permitted. Changes on the **Default** status does not affect any data already in the system.
